Open Payments Methodology Overview & Data Dictionary

1 Introduction

Open Payments, which is managed by the Centers for Medicare & Medicaid Services (CMS), is a national disclosure program created by the Affordable Care Act (ACA). The program promotes transparency and accountability by helping consumers understand the financial relationships between pharmaceutical and medical device industries, and physicians and teaching hospitals. These financial relationships may include consulting fees, research grants, travel reimbursements, and payments made from the industry to medical practitioners.

It is important to note that financial ties between the health care industry and health care providers do not necessarily indicate an improper relationship.

This document provides a guide to how CMS publishes the informational data gathered by Open Payments for public use. It explains the sources of the data, the data files that are available from CMS, and the fields contained in each data file. View the data and learn more about the Open Payments program by visiting <https://www.cms.gov/openpayments/index.html>.

Open Payments Methodology Overview & Data Dictionary

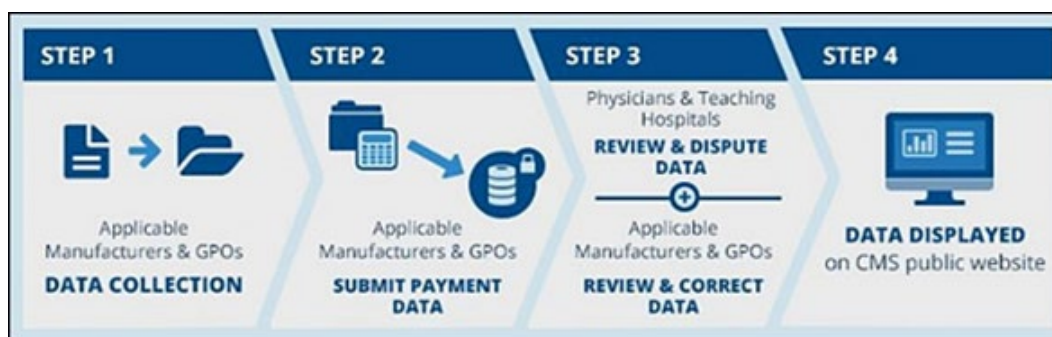

2 Methodology

Applicable manufacturers and applicable group purchasing organizations (GPOs) are required to submit data about payments and other transfers of value made to physicians and teaching hospitals between January 1 and December 31 of each program year. They are also required to submit information regarding ownership or investment interests held by physicians or their immediate family members during the program year.

This data may then be reviewed and, if necessary, disputed by the physicians and teaching hospitals associated with those records. The data is then made available on <https://openpaymentsdata.cms.gov/> for online browsing and downloading. Data submitted to Open Payments that is eligible for publication is published twice annually; first, in an initial publication, and then in a refresh publication. Refer to Section 2.3 for more information. Publishing rules, limitations, and exclusions are given in Section 2.6.

Figure 2.1, below, provides a high-level representation of the various periods during a given program year. Exact dates for the current program year are given in Appendix A.

Figure 2-1 Steps of the Open Payments Program

Open Payments Methodology Overview & Data Dictionary

2.1 Steps 1 and 2: Data Collection and Submission

Applicable manufacturers and applicable GPOs submit their data for a program year during a designated submission period in the subsequent calendar year. For example, data collected from January 1-December 31, 2019 (“Program Year 2019”) was submitted during the submission period, which ran from February 1 to March 31, 2020. During the submission period, applicable manufacturers and applicable GPOs may also submit data from earlier program years as well as updates to previously submitted data.

Physicians may be identified as covered recipients of records or as principal investigators associated with research-related payment records. To accurately identify physicians associated with records and correctly attribute those records to valid physicians, applicable manufacturers and applicable GPOs are required to include in their records the names of the physicians and other identifying information, including the physician’s state medical license number(s) and National Provider Identifier (NPI), if the physician has one.

Teaching hospitals may also be identified as covered recipients. Teaching hospitals are defined by CMS as any hospitals receiving payments for Medicare direct graduate medical education (GME), inpatient prospective payment system (IPPS), indirect medical education (IME), or psychiatric hospital IME programs during the last calendar year for which such information is available. CMS has made available lists of reportable teaching hospitals for each program year, which can be found on the Resources page of the Open Payments website (<https://www.cms.gov/OpenPayments/About/Resources.html>).

During the submission process, the Open Payments system checks the submitted information to verify that the reported identifying data matches to valid physicians and teaching hospitals. This initial system matching can result in some records being rejected. These records must be corrected and re-submitted by the applicable manufacturer or applicable GPO in order for the records to be eligible for review, dispute, and publication.

2.2 Step 3: Review and Dispute Data/Review and Correct Data

Physicians and teaching hospitals may review the data attributed to them in the Open Payments system prior to its publication, and they may dispute any data they believe to be inaccurate. Each program year has a designated review, dispute, and correction period that begins after the end of the submission period. The Program Year 2019 dates for this period and all other periods referenced in this section are provided in Appendix A.

The review, dispute, and correction period starts with a 45-day review and dispute period for physicians and teaching hospitals to review, dispute, and work with the reporting entity to resolve any disputed record(s) submitted during the submission period. This includes records submitted for the previous program year, and any newly submitted records from prior program years. Similarly, records that are flagged for delay in publication by the reporting entity are eligible for review and dispute by physicians and teaching hospitals.

Open Payments Methodology Overview & Data Dictionary

Immediately following the initial 45-day review and dispute period is an additional 15-day correction period for reporting entities to make final corrections to records and resolve any active disputes.

Note that although there is a designated review, dispute, and correction period, these activities can be performed through the end of the calendar year on all records that were submitted during the submission period of the current calendar year. This includes records for the latest program year and newly edited, submitted, and re-attested records from previous program years.

The designated review and dispute period only affects how the record is displayed in the data publication and subsequent data refresh. If a dispute is not resolved within the review, dispute, and correction period of a program year, all parties should still continue to seek a resolution until the dispute is resolved.

Disputes that are not resolved by the end of the correction period will be identified as disputed in the initial publication. Any disputes not resolved before the end of the calendar year (December 31st) will be identified as disputed in the refresh publication.

After the end of the calendar year, all records that had been available for review and dispute will no longer be available to covered recipients to review or dispute within the Open Payments system. Covered recipients can contact the reporting entity outside of the Open Payments system if any corrections are required to the published data after the end of calendar year. Reporting entities will still be able to edit records after the end of the calendar year.

2.3 Step 4: Data Publication

Only data submitted and attested to by the submission closing date is eligible for publication in the subsequent initial and refresh publications. Data submitted and attested after the submission closing date is considered late and will not be eligible for publication until the initial publication in the following calendar year. The Modified-Without-Dispute Cutoff Date is the end date for undisputed record edits to be included in the refresh publication; data that did not have any disputes against it and was modified after the modified- without-dispute cutoff date in November will not be available for review and dispute until the next calendar year during the review and dispute period hence this data will not be considered for the refresh publication but will be eligible for the next initial publication.

Data submitted to Open Payments that is eligible for publication is published twice annually, as explained below. Explanations of record limitations, exclusions, and ineligibility are provided in Section 2.6.

- Initial Data Publication
 - Occurs annually on or by June 30th.
 - The first publication of the eligible records submitted and attested on or before the submission closing date of the latest program year.
 - The republication of eligible records from prior program years, including updates to previously published records made since the previous publication.
 - The data published is the latest attested version of the payment records at the end of the

Open Payments Methodology Overview & Data Dictionary

correction period of the latest program year.

- Refresh Publication
 - Occurs at least once annually, typically at the beginning of the calendar year.
 - Publishes updates to the data made since the initial publication.

The second publication of eligible records submitted and attested on or before the submission closing date of the latest program year.

- Contains updates made to records after the correction period of the latest program year and before the end of the calendar year (or before the modified-without-dispute cutoff date in November for records not under dispute).
- The data published is the latest attested version of the data at the end of the calendar year.

CMS publishes the Open Payments data for public use at <https://openpaymentsdata.cms.gov>.

2.3.1 Effect of Disputes on Data Publication

If a dispute is resolved by making corrections to the record(s), the publication of the updated version depends upon when the record(s) were corrected. See Section 2.3, above, for an explanation of which version of the data will be published.

Records still under dispute at the time of publication may be published with an indicator that identifies those records as being under dispute. Whether a record is identified as disputed in data publications depends upon when the dispute was initiated and when/if the dispute was resolved. The table below lists scenarios for dispute initiation and resolution, and explains how records are identified in data publications based upon those scenarios.

Figure 2-2: Records Identified as Disputed

Dispute Initiated/Resolved	Published As Disputed in Initial Publication?	Published As Disputed in Refresh Publication?
Initiated: During the 45-day Review and Dispute Period Resolved: By the end of the 15-day Correction Period	No	No
Initiated: During the 45-day Review and Dispute Period Resolved: After the end of the 15-day Correction Period	Yes	Yes, unless the dispute is resolved before the end of the calendar year
Initiated: During the 15-day Correction Period Resolved: By the end of the 15-day Correction Period	No	No
Initiated: During the 15-day Correction Period Resolved: After the end of the 15-day Correction Period	No	Yes, unless the dispute is resolved before the end of the calendar year

Open Payments Methodology Overview & Data Dictionary

Dispute Initiated/Resolved	Published As Disputed in Initial Publication?	Published As Disputed in Refresh Publication?
Initiated: After the Correction Period Resolved: By the end of the calendar year	No	No
Initiated: After the Correction Period Resolved: After the end of the calendar year	No	Yes

Note: If a record was initially disputed during the 45-day review and dispute period and more disputes are initiated on that same record during the 15-day correction period, then the data attested to as of the end of the 15-day correction period is published in the initial publication, including any changes made due to dispute resolution.

2.4 Data Sources and Types

Applicable manufacturers and applicable GPOs must enter detailed information about payments, other transfers of value, or investment interests into the CMS Open Payments system. These payments, other transfers of value, and ownership or investment interests are categorized into three (3) payment types:

1. General Payments: Payments or other transfers of value made that are not in connection with a research agreement or research protocol.
2. Research Payments: Payments or other transfers of value made in connection with a research agreement or research protocol.
3. Physician Ownership or Investment Interest Information: Information about physicians who hold an ownership or investment interest in an applicable manufacturer or applicable GPO or who have an immediate family member holding such interest.

2.5 Reporting Limitations and Exclusions

The Open Payments data published by CMS is subject to limitations and exclusions.

Certain payments or other transfers of value are excluded from reporting, such as product samples and educational materials intended for patient use. Records of such payments and other transfers of value should not be submitted to the Open Payments system. These exclusions are outlined in the Open Payments final rule, at 42 C.F.R. § 403.904(i), available at <https://www.cms.gov/Regulations-and-Guidance/Legislation/National-Physician-Payment-Transparency-Program/Downloads/Final-Rule.pdf>.

Payment records will only be accepted by the Open Payments system if they are both successfully validated and successfully matched to a valid physician or teaching hospital.

2.6 Publication Rules

The publication rules for Open Payments are as follows:

Open Payments Methodology Overview & Data Dictionary

- Eligible records submitted and attested before the end of the data submission period will be published in that year's initial and data refresh publications.
- The data published in the June (initial) publication is the latest attested version of the data at the end of the correction period.
- The data published in the early year (refresh) publication is the latest attested version of the data at the end of the calendar year.

Records may not be eligible for publication based upon publishing limitations. See Section 2.6.1 for details.

2.6.1 Publishing Limitations

The following limitations apply to what records are published by CMS through Open Payments:

1. **Data attested after the submission closing date** is considered late and will not be included in the initial publication or the next data refresh publication. Late submissions may be eligible for publication in the following calendar year's data publication.
2. **Records in which physician or physician principal investigator identifying information is changed after the submission end date** will not be included in the initial publication or the next data refresh publication. Such a change requires the deletion of the original record and submission of a new corrected record; after the submission closing date, the corrected record would be a late submission.
 - a. These corrected records may be eligible for publication in the following calendar year's initial data publication.
3. **Records deleted** prior to the end of the correction period for that year will not be published in the initial data publication or in any subsequent publications.
 - a. Records deleted after the correction period but prior to December 31 of that calendar year will be published in the initial publication but will be removed in the data refresh publication and any subsequent publications.
4. **Records without disputes against them that are updated after the submission period** will not be published in the initial data publication.
 - a. The record may be eligible for the next data refresh publication if it was resubmitted and attested by the modified-without-dispute cutoff date in November of that year.
 - b. Updates to undisputed records that are resubmitted and attested after the modified-without-dispute cutoff date in November will not be published in the subsequent refresh publication but may be eligible for publication in the following calendar year's publication.
5. **Records that had been published previously and were then edited after their publication** and not re-attested to by the end of the next correction period are not published.
6. **Reporting entities may request a delay in the publication of research payment records** if the records relate to research or development of a new drug, biological, device, or medical supply; a new application of an existing drug, biological, device, or medical supply; or clinical investigations regarding a new drug, biological, device, or medical supply. These payments will be published in later publications of Open Payments as appropriate. See the Open Payments Final Rule, 42 C.F.R. § 403.910, available at <https://www.cms.gov/Regulations-and-Guidance/Legislation/National->

Open Payments Methodology Overview & Data Dictionary

[Physician-Payment-Transparency-Program/Downloads/Final-Rule.pdf](#).

- a. Records for which submitters requested a delay in publication or a renewal of a delay in publication prior to the end of the submission period will not be published for the year they are delayed. These records will be eligible for publication in the next year's publication, unless the delay in publication is renewed.
 - b. Records may be delayed up to four years from the year of the payment (i.e., the record's program year).
 - c. Records without disputes that are updated to remove delay in publication after the submission period will not be published in the initial publication, but will be published in the refresh publication.
7. **Program Year 2013:** Beginning with the Program Year 2019 data submission, reporting entities were no longer able to submit records for Program Year 2013.

2.7 Data in Context

The context of the data is shown in two different ways. General contextual information about the program can be found on the Data in Context page on the Open Payments website (<https://www.cms.gov/OpenPayments/About/Open-Payments-Data-in-Context.html>).

Context at the individual payment level is available when reported by the applicable manufacturer or applicable GPO. This data is posted exactly as it was submitted and was not altered by CMS. This may be viewed when exploring the data.

Open Payments Methodology Overview & Data Dictionary

3 Accessing the Data

Open Payments data is published at <https://openpaymentsdata.cms.gov>. From this site, all published Open Payments data can be viewed online and downloaded.

3.1 Online Data Access

The Open Payments data is accessible through the Open Payments Search Tool and the Open Payments Data Explorer. The Search Tool (<https://openpaymentsdata.cms.gov/search>), allows users to search Open Payments data for physicians, teaching hospitals, and companies making payments. The Data Explorer (<https://openpaymentsdata.cms.gov/browse>), which allows users to browse datasets; search records by physician, teaching hospital, principal investigator, and reporting entity; and filter the data.

3.2 Downloading the Data

CMS has made available the capability to download complete Open Payments data sets. Data sets for all program years are available. The data sets are contained in downloadable ZIP files. Each program year ZIP file contains several comma-delimited character-separated value (CSV) files and a README text file. The program year is included in each ZIP file's name.

Also available for download is a supplement file that contains detailed information about physicians who were indicated as recipients of payments, other transfers of value, or as holding ownership or investment interests in applicable manufacturers on records that were published by CMS through the Open Payments program. The supplement file also contains information about physician principal investigators who were associated with research payments or other transfers of value in records published by CMS through the Open Payments program. The supplement file contains only physicians who have at least one payment record associated with them that has been published by CMS through the Open Payments program. This list is available in a downloadable ZIP file, which contains a comma-delimited character-separated value (CSV) file and a README text file.

CMS does not recommend using Windows File Compression to decompress downloaded files. Programs recommended for file decompression are WinZip, WinRAR, and 7-Zip.

The **Program Year ZIP files** contain CSV files of the following types:

- **General Payments Details**
 - General payment records provide the total value of general payments or other transfers of value to a particular recipient for a particular date.
 - Each record includes identifying information for the applicable manufacturer or applicable GPO who made the payment, and identifying information for the recipient.
 - For Program Year 2016 and onwards, each record may list up to five products if the payment was made in relation to any such products. Records for program years 2013-2015 may include up to five covered drugs or biologicals and also up to five covered devices or medical supplies.

Open Payments Methodology Overview & Data Dictionary

- **Research Payments Details**

- Research payment records provide the total value of a payment or other transfer of value made for research purposes to a particular recipient for a particular date.
- Each record includes identifying information for the applicable manufacturer or applicable GPO who made the payment, as well as identifying information for the recipient. Information is also provided for up to five physician principal investigators associated with the payment.
- For Program Year 2016 and onwards, each record may list up to five products if the payment was made in relation to any such products. Records for program years 2013-2015 may include up to five covered drugs or biologicals and also up to five covered devices or medical supplies.

- **Physician Ownership Details** – The complete published data set for physician ownership or investment interest data. Physician ownership records provide information on physician ownership or investment interests in an applicable manufacturer or applicable GPO.

Records for all three payment categories (general, research, physician ownership) include a Change Type indicator that explains the record's status relating to previous publications.

Figure 3-1: Change Type Values and Meanings

Change Type value	Meaning
NEW	The payment record was submitted during the most recent submission window and is being published for the first time.
ADD	The payment record had been submitted prior to the most recent submission window but was not eligible for publication until the current publication. The record is being published for the first time.
CHANGED	The payment record has been published in a previous publication and has been modified since its last publication, which may include an update to its dispute status.
UNCHANGED	The payment record has been published in the previous publication and is being republished without change in the current publication.

- **Deleted and Removed Records** – The Deleted Records File contains the Record ID, Payment Type, and Program Year of records that were previously published and have been deleted or removed from the Open Payments system for that program year. Each record also has a Change Type indicator, which shows if the record was deleted or removed.
 - Note: The initial publication of the latest program year's data will not include a Deleted and Removed Record file, as the initial publication contains records that have not been
 - Note: In the event there are no REMOVED or DELETED records for this program year, the

Open Payments Methodology Overview & Data Dictionary

Removed and Deleted Records file will not be included in the compressed (.zip) file.

The text file in the program year ZIP files is:

- **README** - A text file that provides information about the files available for download, their formats, special handling considerations, and other alternatives for viewing the Open Payments data.

Also available for download is the **Physician Profile Supplement Detail ZIP file**, which contains one (1) CSV file and one (1) README file. The CSV file contains all of the identifying information for physicians who were indicated as recipients of payments, other transfers of value, or ownership and investment interest in Open Payments records, as well as physician principal investigators who were associated with payments or other transfers of value. The README file provides information about the contents of the CSV file.

Appendices A through G list the data elements displayed in the General Payments Details files, Research Payments Details files, Physician Ownership Details files, and Deleted Records files. These appendices also provide descriptions and sample data for each data element. Note that general and research payments have separate appendices for program years 2013-2015 and for PY 2016 and onwards. Appendix H provides a complete list of data elements displayed in the Physician Profile Supplement File, including descriptions and sample data for each data element.

Note: **The CSV data files may be too large for Microsoft Excel and other common spreadsheet programs.** Excel cannot display worksheets with more than 1,048,576 rows. To display the data in its entirety requires the use of programs capable of handling very large numbers of records.

3.3 2019 Program Year Files

The ZIP file OP_DTL_PGYR2019_P06302020.zip contains the three (3) CSV files and one (1) text file as described above for Program Year 2019 data. The table below summarizes key information for each of the above-referenced files.

3.10 Physician Profile Supplement File

The Physician Profile Supplement File contains all of the identifying information for physicians who were indicated as recipients of payments, other transfers of value, or ownership and investment interest in records published by CMS through Open Payments as well as physician principal investigators who were associated with payments or other transfers of value in records published in Open Payments. This list can be used as a resource when analyzing Open Payments datasets.

The ZIP file OP_PH_PRFL_SPLMTL_P06302020.zip contains one (1) CSV file with the Physician Profile Supplement File and one (1) text file, a README file that provides information about the file available for download, its format, special handling considerations, and other alternatives for viewing the data.

Figure 3-9: Physician Profile Supplement File

File Name	Number of Rows	Number of Columns	Raw Data File Size
Physician Profile Supplement	1086673	27	212M

3.9.1 Contents of the Physician Profile Supplement File

The file contains only physicians who were associated with at least one payment record published in Open Payments since the start of the program in 2013. Each record includes the physician's demographic information, specialties, and states in which the physician holds medical license(s), as well as the Open Payments' unique identification number (Physician Profile ID) for each physician. The Physician Profile ID is a unique identifier for a physician within the Open Payments system and can be used to search the data files to find payments made to that specific physician as well as to link physician records across program years.

3.9.2 How to Use the Physician Supplement File

Individuals and organizations can use the identifying information provided in the Physician Profile Supplement File as an analytical resource to search for records of payments or other transfers of value made to a particular physician, as well as to link physician data across program years. A complete list of data elements displayed in the Physician Profile Supplement File, including descriptions and sample data for each data element, can be found in Appendix H.

Information related to the taxonomy codes included in the physician profiles is provided in the "Taxonomy / Specialty Lookup Document," available on the Resources page of the Open Payments website, at <https://www.cms.gov/OpenPayments/About/Resources.html>.

Appendix A: Key Dates for the Open Payments System for Program Year 2019

Figure A-0-1: Key Dates for Program Year 2019

Program Activity	Start Date	End Date
Applicable manufacturers and applicable GPOs collected payment data	January 1, 2019	December 31, 2019
Applicable manufacturers and applicable GPOs submitted data to the Open Payments system	February 1, 2020	March 31, 2020
Physicians and teaching hospitals reviewed data and disputed records as necessary	April 1, 2020	May 15, 2020
Applicable manufacturers and applicable GPOs corrected data as necessary	May 16, 2020	May 30, 2020
Data published by CMS	N/A	June 30, 2020
Data refresh published by CMS	N/A	January 2021

Registration for applicable manufacturers, applicable GPOs, physicians, and teaching hospitals is available year-round.

Record review, dispute, and correction can take place year-round. The dates above are the dates that drive how the data is reflected in the initial data publication of June 2020. Disputes initiated after May 15, 2020 or changes to records made after May 30, 2020 may be reflected in the data refresh publication in early 2021. See Sections 2.2 and 2.3 of this document for details.
